

IDENTITY PROJECT

DIANA EZEREX

Identity and acceptance are challenging yet essential topics, especially in a time where they are being redefined, discussed, and validated. Belonging means being accepted and feeling like you belong. But what might sound simple is actually an intense and often painful process, especially when constantly questioning one's own sense of belonging. Diana Ezerex has embraced and processed this journey in her "IDENTITY PROJECT," releasing it in four EPs.

With her exceptional and emotionally powerful lyrical prowess, coupled with a fresh sound that leaves a lasting impression, Ezerex will release her most personal work to date by end of 2024. Because she draws from her own experiences, emotions, and questions in her songs, experiencing the artist's live performance becomes an unforgettable event.
